### THE TARDY UPLIFT

AMERICANS HAVING A GOOD TIME IN ITALY.

### A CARRIAGE FOR A BLOCK

The Sightseers View the Famous Leaning Tower and See Some More of Those Strang Pictures.

Continuation of Miss May Corwin's letter from Venice, Italy, under date of August 4:

We had a delightful pension at Florence. It advertises a "lift" quite truthfully—it lifts two persons at a trip and is one of those electric affairs used all through Europe, where the porter shuts you in, then punches a button and you arise, destination unknown, but rate of speed such that you have constant heart trouble lest it stop altogether until you see another floor float gently past. You really do land at last and the affair you came up in sinks gently back to the hungry crowd waiting five flights below. We never did ride down. Don't know whether it could stand the strain; but we couldn't, because we could walk so much faster, even Cousin George.

Our rooms were not so elegant as some we have indulged in, and the mosquitoes were thicker than I ever saw them, but we had such good service and fine meals. The landlady sat at the end of the table very gorgeously dressed. The waiter and waitress wore white cotton gloves in serving, which reminded us a little of a funeral, but didn't stop the appetites. We were also in the heart of the city, so could easily walk to all sights.

(A little joke on five of us on a recent Sunday: We could not get a carriage, so walked half a mile through the park, persuading ourselves we were not hungry and tired, until we came to the outer gate and saw cabs in a row. We carefully picked out a strong horse and told the driver our street and to hasten. He seemed willing, but rather confused, and turning the next corner he passed our hotel before we came to. We were only around the corner when we got in. They surely jolled us for being unable to walk the last block. We had not gone in that way and didn't look around on coming out.)

Some of us took the trip to Pisa from Florence. It took little more than half a day by train and was delightful. The city is small, so we walked to the corner where the cathedral, baptistry, tower and old cemetery repose in a large quiet square. The buildings are beautiful, made of white marble and many small pillars used outside, which adds to the lightness. At one end of the church there are three rows graduated, one above the other with little balconies behind each. There is some black ornamentation, which sets them off better.

We went first to the old cemetery, which is in the form of a rectangle, with high brick wall around and not large. There is an arcade all around with lovely arched windows. On the walls of the arcade are the most interesting frescoes made in the Fourteenth century, and the colors are still quite well preserved.

Cousin George was so crazy about "The Horrors of the Last Judgment" and "Triumph of Death," which covered wall space equal to our whole parlor, that he bought large reproductions. They are some pictures of the horrors of hell, beginning with the lowest depths, among fire and pitchforks of the demons up through the snake and other reptile stage. A huge figure occupies the centers and chews some while crushing others in his hands—a pet theory of that age. The souls are popping up through trap doors into the presence of the judge, and the apostles sit in a long row like a jury. The other is stranger still: Death is flying for the people on the right who enjoy earthly pleasures, but passes the beggars who implore him, and the little souls coming out of the mouths of the stack of bodies in the center are caught by angels or demons, in some cases both, and a fight

is on. The demons are punching their heads first into a volcanic mountain top, on the slopes of which a group of monks carry on their pastoral life serenely. Below a court hunting party was stopped by three open graves containing decaying bodies, symbol of death again, and one man of prominence is holding his nose.

The earth for the place was brought from Jerusalem, fifty-eight ship loads so sacred, and though there is no evidence of graves in the grass plot where wild flowers grow, there are monuments to many great men and other pictures all around the arcade.

The large baptistry contains a beautiful carved pulpit which is supported by various kinds of marble columns, some of which rest on the backs of marble lions. It is a beautiful thing. The building has a musical echo, which the guide displayed for a few cents. The church has sixty-eight pillars, brought from war by these people, and is a gorgeous place—really one of the finest in Italy and one of the few I have enjoyed seeing.

The world famous leaning tower is worthy of its name. One hundred and ninety-six feet high, it leans fourteen feet out of perpendicular, yet gives one the feeling that it is perfectly substantial and always will be. The base is a little lower than the surface of the plaza, and most of the lean comes in the first three stories. Some claim that the builders attempted to straighten it higher up. It is beautiful, white, with rows upon rows of small columns reaching around it. We climbed up the circular stairway which occupies the space between outer wall and central cavity. It is a most peculiar experience. The lean of the tower throws you first into one wall then the other, then forward or backward. You walk around a portico and climb up hill, then down, in making the circle. The footprints in the marble stairs of all others who have made the ascent impresses one with the power of gravity just as it did Galileo, who used this place to experiment. There are great bells at the top, and, of course, another wonderful view.

The little city is only six miles from the sea to which the Arno flows rather rapidly. There are large mountains on the other three sides and quite a fertile valley around. The city is surrounded by a wall and has the same small crooked streets that typify this land.

We hunted up a man who had lived in Lincoln, Ill. (an acquaintance of Cousin George's), who is now residing in comfort on American money made in the candy store business. He took us into a very nice garden behind the house—which, like most others, had a very plain exterior, and all the living rooms above the first floor. His family were at the seashore, so he could only give us some fine wine in the arbor, which Cousin George enjoyed, but rather bothered my head. He is a large fine looking fellow and very hospitable.

### COUPLE SELECTED NEW M. E. PASTORS

ALL READY FOR THE WEDDING AT THE STREET FAIR.

### REV. MILLER TO TIE KNOT

Will Get a Big Lot of Presents to Begin Housekeeping With—Everything Ready for the Big Show.

The street fair is not very far off, and the various committees are very busy this week getting all arrangements in shape for the event. The street fair will open on Monday, but no program will be given, as this will be preparation day, so that all of the concessions, exhibits and shows will be ready to start on Tuesday.

The public wedding committee, composed of Ralph Marcell, Harry H. Lyle and Jesse Paulette, have selected the couple that will be married in public on Thursday during the fair week. They received four applications. The arrangements for this affair are not yet completed, but the wedding will probably take place in the court yard at 2:30 o'clock in the afternoon of this day. It will be performed by Rev. C. J. Miller, pastor of the Christian church of this city. The names of the couple to be married will not be made public until the ceremony is performed. The couple will receive \$300 worth of presents from the merchants of Maryville.

The streets in the business section will be strung with electric lights and streamers. The colors for the fair this year will be purple and orange, and Mayor Arthur S. Robey went to St. Joseph Tuesday to order the street decorations. The Electric Light company is putting up their wires and will install the lights the last of the week. A party composed of M. A. Turner, Albert Kuchs, Glenn Goff, Lawrence Schumacher and Bruce Montgomery went to Clarinda Tuesday to attend the fair and see about contracting for a few shows that will be there.

A number of counties over the state have perfected organization against the single tax, and so far nothing has been done in Nodaway county.

But he became suddenly worse and continued in bad condition until his death. The funeral arrangements have not yet been made. ### STRANGE DISEASE

THAT IS KILLING HUNDREDS OF HORSES IN KANSAS.

### MAY BE IN THIS COUNTY

Two Horses Have Died and Several Have Been Sick in This County During the Past Week.

So far there has been only two deaths of horses in this vicinity, according to Deputy State Veterinarian G. H. Leach of this city. Another horse belonging to Johnson West, north of Pickering, died today, according to Dr. Leach, who attended the horse this morning but could do nothing for him. Other horses that have had the disease are the horses belonging to A. R. Robinson and Sam McClurg of near Maryville, a horse belonging to William Friend of near Hopkins, and also a case of the disease at Hopkins. The two horses that have died were those of H. Murray and D. E. Shupe, which died on Sunday.

What the disease is that is killing so many horses and animals in Kansas is not definitely known, but it is thought that the same disease that is affecting them is in Nodaway county. The following were the instructions issued to farmers in Kansas affected by the horse epidemic:

"Take all horses and mules off pasture until freezing weather.

"Feed animals on green corn fodder, cane or kaffir, bran, oil meal, or, in fact, any food that has a laxative action.

"Do not feed hay cut from low or overflowed land, or land receiving drainage from pastures.

"See that horses have a pure, wholesome water supply, free from surface drainage and that they are excluded from all still stagnant or surface water.

"Empty, clean and thoroughly disinfect all water troughs and tanks by scrubbing out with a solution of four ounces of carbolic acid to a gallon of water.

"Many sections are visited with unscrupulous persons who are proclaiming they can prevent and cure this disease. Beware of them. Do not permit them to do anything. Pay them no money. The governor has given instructions to prosecute all such vandals. All persons acting as graduate veterinarians can easily identify themselves."

The disease in Nodaway county don't seem to be bad, as the only cases are those that are now treated by Dr. Leach. Other sections of the county report that no horses have died there.

### Cases Filed in Court.

A. M. and Annie Bright vs. Frank Gorsche, for damages; C. F. McCaffrey, attorney.

Are you ready for the big street fair?

Republicans in some sections are passing resolutions calling for the resignation of Judge Norton, who has accepted the Bull Moose nomination for governor. They say he owes it to the party that elected him to give up his office now that he has forsaken the party.

The trusts can be depended on to help the trust candidates for president. The people should remember that it takes money to run the people's campaign and that it takes 10,000 one-dollar contributions to equal one \$10,000 trust contribution.

All those who were benefitted when President Taft vetoed the bill to reduce the price of sugar two cents a pound or the bill to reduce the cost of clothing will want Taft re-elected. Now will all the people who were not benefitted by his veto of those Democratic bills give their aid to the Democratic candidate? If so Woodrow Wilson's election will be nearly unanimous.

While a new state chairman will be most satisfactory to the rank and file of the Missouri Democracy, Joe Shannon is entitled to great credit for raising a considerable campaign fund during vacation and thus making the work of his successor much easier. Ordinarily the first work in hand is to raise funds to begin with, but this time the work of organization, education and fund raising can go along together. Governor Dockery, one of the best and most useful Democrats in Missouri, is also entitled to much praise for the valuable assistance he rendered in this work.

Called by Illness.

Mrs. E. Y. Shinabargar, living south of Maryville, went to St. Joseph Monday morning on account of the severe illness of her daughter-in-law, Mrs. John Shinabargar.

## IOWA MINERS IN RACE RIOT

Seven Men Wounded, Constable Will Probably Die.

### NEGROES DISPLACED BY WHITES

Trouble Started Over Poker Game—Many Guns and Razors Taken From Combatants—Officers Now in Control.

Scandia, Ia., Sept. 10.—Four men were shot and two others badly stabbed in a clash between white and negro miners here.

A negro constable, who attempted to quiet the disturbance, probably was fatally shot. William and Joseph Heathcote, white, and William Davidson, negro, said to be leaders of the outbreak, have been arrested.

The race war first made its appearance six weeks ago, when a number of negro miners were discharged and white men engaged to do their work.

The battle between the negroes and whites resulted from a poker game over which there was much feeling, according to officers.

### White Leaders Bad Citizens.

The Heathcote brothers, leaders of the white forces, are charged with having fired most of the shots, many of which buried themselves in four negroes and probably fatally injured Constable H. Lee. The other negroes may recover.

Many white miners were disarmed during the night. The razor was the weapon used by the negroes.

Following the battle, the Heathcotes, who are considered dangerous characters, went to their home, and James fell unconscious from loss of blood.

A report reached them that officers were coming from Perry, Ia., and the two older brothers, armed with rifles, formed a guard about the house and declared they would kill anyone who attempted to arrest them. They held out until late in the day, and then surrendered to Sheriff George Ross.

The authorities now have the situation well in hand and no further disturbances are expected. Many more arrests are to be made, according to officials.

### WON TROPHY WITHOUT CONTEST

Americans Refuse to Compete When French Aviator Made 105½ Miles an Hour.

Chicago, Sept. 10.—Jules Vedrines, premier French aviator, flying a monoplane, was the first aviator to complete his flight against time in the Gordon Bennett competition here.

Vedrines took the air at 9:28 and finished the 124.8 miles of the race slightly more than an hour later. His average speed was 105½ miles an hour.

The competition was a fizzle from the American standpoint. It was admitted that the Yankees, with their slower, heavier machines, did not have a chance against the French racer.

"What's the use of flying?" asked the Americans in the Gordon Bennett race. "Vedrines' time is unbeatable by any machine here."

It is admitted France has won the trophy for the first time, on Vedrines' showing of 105½ miles an hour.

### The Biggest Corn Crop.

Washington, Sept. 10.—This year's corn crop in the United States is the biggest on record, according to the report of the agricultural department, just issued. It makes the crop condition 82.1, with an indicated yield of 2,995,000,000 bushels, 454,000,000 bushels more than in 1911 and 68,000,000 bushels more than the largest preceding crop, that of 1904.

Mrs. A. M. Redce went to Pickering Tuesday for a visit with friends.

## MAINE GOES BACK TO REPUBLICANS

W. T. Haines Elected Governor by Small Plurality.

### PROGRESSIVES HAD NO TICKET

Joined Hands With G. O. P. to Beat Democrats—Consented to Postpone Split Till State Election Was Over.

Portland, Me., Sept. 10.—Maine turned back to the Republican party in the state election.

William T. Haines of Waterville was elected governor over Gov. Frederick W. Plaisted, his Democratic opponent, who sought a second term, while the Republicans gained one of the two congressional districts lost to the Democrats two years ago.

Returns for governor from 559 out of 634 election districts gave Haines (R.) 66,121, Plaisted (D.) 62,127.

The corresponding vote in 1910 was: Bernald (R.) 60,556, Plaisted (D.) 67,501. These returns show a Republican gain of 9 per cent and a Democratic loss of 8 per cent.

If the same percentage is maintained throughout the state Haines' election is indicated by about 3,000 plurality.

The new legislature is expected to have a small Republican majority.

### Fight Was Close.

The struggle between the Democrats and Republicans in Maine for control of the executive and legislative departments of the state government, the four congressional districts and county offices was one of the closest in many years.

The Democrats went into the state struggle this fall on the defensive, having won control of the state government in the election of 1910. They based their campaign almost wholly on national issues, although defending their course in the state administration. The Republicans used state issues entirely as the weapons of attacks and refused to be drawn into any discussion of national affairs. The progressive element of the Republican party was in full control of party machinery, but with the approval of Col. Roosevelt a split was postponed until after the struggle.

### Fight for T. R. Now.

Many of the leading state speakers in the campaign which has just ended announced that they would take the stump immediately for Col. Roosevelt for president.

The Republican organization was able to bring out a greater vote for Haines in the contest than was given for Bernald, the party candidate who was defeated two years ago, while the Democratic vote for Plaisted showed a falling off from that of 1910.

### SHOT FOUR MEXICAN OFFICERS

Antonio Serne and Three Lieutenants Planned to Betray and Loot Capital.

The City of Mexico, Sept. 10.—Antonio Serne and three of his lieutenants who aided him in forming a plan to open the capital to the Zapatistas on the night of September 1, were shot here by a squad of soldiers.

Serne, who had given himself the title of general, conceived the plot and since the arrest of himself and a score of his followers in the suburb of the city a few days ago, they have confessed that they expected to engage in a season of loot on the national holiday next Sunday.

### Dentists Meet in Washington.

Washington, Sept. 10.—Over 4,000 delegates to the National Dental association were present when that body convened its sixteenth annual meeting in the auditorium of the New Willard hotel here today. Cuno H. Randolph delivered the address of welcome, which met with response from Dr. Frank O. Hatrick of Ottawa, Kan. The feature of the opening session was the address of Dr. Newell S. Jenkins, an American dentist from Dresden, Germany, who described many interesting features of the profession as practiced abroad. Opponents of the present form of organization busied themselves during the earlier hours of the meeting by scattering propaganda advising reorganization. They claim such a move would mean the elimination of inefficient dentists.

### Knox Arrives at Tokio.

Tokio, Sept. 10.—The American secretary of state, Philander C. Knox, the first special envoy to the funeral of the late Emperor Mutsuhito, to reach Japan has arrived at Tokio. Mr. Knox was accompanied by Mrs. Knox and a suite, including Ransford Miller, chief of the Far Eastern division of the state department. The American party was given a cordial reception.

### Hanford Decree Reversed.

Washington, Sept. 10.—The acting attorney general, Mr. Harr, instructed the United States attorney at Seattle to agree to a reversal by the circuit court of appeals of ex-Judge Hanford's decision, cancelling the citizenship of Leonard Olson, a Socialist. Hanford's action resulted in impeachment proceedings against the judge and his resignation.

### NINE AMENDMENTS PROPOSED

#### MISSOURI CONSTITUTION MAY HAVE MANY CHANGES.

Voters in November Will Have Opportunity to Approve or Reject These Propositions.

Jefferson City, Sept. 10.—Nine proposed amendments to the constitution will be submitted to the voters of Missouri at the November election. Five of these were submitted by the last legislature and four under initiative and referendum petitions.

The amendments are as follows:

Reducing the minimum age at which children can enter the public schools from 6 to 5 years.

Authorizing St. Louis county to impose a special tax of five cents on the \$100 assessed valuation for constructing sewers and water systems.

Authorizing cities of the third and fourth classes to vote 40 cents on the \$100 assessed valuation for public buildings.

Changing the naturalization law so as to require aliens to take out their full naturalization papers before exercising the right of franchise. They can now vote after having filed their declarations to become citizens, or first papers, as generally referred to by this class of citizens.

Requiring a registration of voters in St. Louis county.

The following four propositions will be submitted under the initiative and referendum and will follow the other amendments on the ballot as here indicated:

Providing for an abolition of taxes upon personal property, other than that owned by public service corporations. This is what is known as the single tax amendment.

Abolishing the state board of equalization and providing for the appointment by the governor of a tax commission, to be composed of three persons. This amendment is a companion piece to the single tax proposition.

Authorizing the opening of the ballot boxes when it is in evidence that crimes against the election law have been committed, and which could only be established after an examination of the contents of the boxes. This is by far the longest of all the amendments. It was prepared at the instance of the Women's Christian Temperance union.

Providing for a mill tax for support of the state university, the state normals and the public schools, the tax to be divided equally.

It will be observed that educational measures constitute the head and tail of the proposed changes in the constitution.

### THE TARDY UPLIFT

AMERICANS HAVING A GOOD TIME IN ITALY.

### A CARRIAGE FOR A BLOCK

The Sightseers View the Famous Leaning Tower and See Some More of Those Strang Pictures.

Continuation of Miss May Corwin's letter from Venice, Italy, under date of August 4:

We had a delightful pension at Florence. It advertises a "lift" quite truthfully—it lifts two persons at a trip and is one of those electric affairs used all through Europe, where the porter shuts you in, then punches a button and you arise, destination unknown, but rate of speed such that you have constant heart trouble lest it stop altogether until you see another floor float gently past. You really do land at last and the affair you came up in sinks gently back to the hungry crowd waiting five flights below. We never did ride down. Don't know whether it could stand the strain; but we couldn't, because we could walk so much faster, even Cousin George.

Our rooms were not so elegant as some we have indulged in, and the mosquitoes were thicker than I ever saw them, but we had such good service and fine meals. The landlady sat at the end of the table very gorgeously dressed. The waiter and waitress wore white cotton gloves in serving, which reminded us a little of a funeral, but didn't stop the appetites. We were also in the heart of the city, so could easily walk to all sights.

(A little joke on five of us on a recent Sunday: We could not get a carriage, so walked half a mile through the park, persuading ourselves we were not hungry and tired, until we came to the outer gate and saw cabs in a row. We carefully picked out a strong horse and told the driver our street and to hasten. He seemed willing, but rather confused, and turning the next corner he passed our hotel before we came to. We were only around the corner when we got in. They surely jolled us for being unable to walk the last block. We had not gone in that way and didn't look around on coming out.)

Some of us took the trip to Pisa from Florence. It took little more than half a day by train and was delightful. The city is small, so we walked to the corner where the cathedral, baptistry, tower and old cemetery repose in a large quiet square. The buildings are beautiful, made of white marble and many small pillars used outside, which adds to the lightness. At one end of the church there are three rows graduated, one above the other with little balconies behind each. There is some black ornamentation, which sets them off better.

We went first to the old cemetery, which is in the form of a rectangle, with high brick wall around and not large. There is an arcade all around with lovely arched windows. On the walls of the arcade are the most interesting frescoes made in the Fourteenth century, and the colors are still quite well preserved.

Cousin George was so crazy about "The Horrors of the Last Judgment" and "Triumph of Death," which covered wall space equal to our whole parlor, that he bought large reproductions. They are some pictures of the horrors of hell, beginning with the lowest depths, among fire and pitchforks of the demons up through the snake and other reptile stage. A huge figure occupies the centers and chews some while crushing others in his hands—a pet theory of that age. The souls are popping up through trap doors into the presence of the judge, and the apostles sit in a long row like a jury. The other is stranger still: Death is flying for the people on the right who enjoy earthly pleasures, but passes the beggars who implore him, and the little souls coming out of the mouths of the stack of bodies in the center are caught by angels or demons, in some cases both, and a fight

is on. The demons are punching their heads first into a volcanic mountain top, on the slopes of which a group of monks carry on their pastoral life serenely. Below a court hunting party was stopped by three open graves containing decaying bodies, symbol of death again, and one man of prominence is holding his nose.

The earth for the place was brought from Jerusalem, fifty-eight ship loads so sacred, and though there is no evidence of graves in the grass plot where wild flowers grow, there are monuments to many great men and other pictures all around the arcade.

The large baptistry contains a beautiful carved pulpit which is supported by various kinds of marble columns, some of which rest on the backs of marble lions. It is a beautiful thing. The building has a musical echo, which the guide displayed for a few cents. The church has sixty-eight pillars, brought from war by these people, and is a gorgeous place—really one of the finest in Italy and one of the few I have enjoyed seeing.

The world famous leaning tower is worthy of its name. One hundred and ninety-six feet high, it leans fourteen feet out of perpendicular, yet gives one the feeling that it is perfectly substantial and always will be. The base is a little lower than the surface of the plaza, and most of the lean comes in the first three stories. Some claim that the builders attempted to straighten it higher up. It is beautiful, white, with rows upon rows of small columns reaching around it. We climbed up the circular stairway which occupies the space between outer wall and central cavity. It is a most peculiar experience. The lean of the tower throws you first into one wall then the other, then forward or backward. You walk around a portico and climb up hill, then down, in making the circle. The footprints in the marble stairs of all others who have made the ascent impresses one with the power of gravity just as it did Galileo, who used this place to experiment.

There are great bells at the top, and, of course, another wonderful view. The little city is only six miles from the sea to which the Arno flows rather rapidly. There are large mountains on the other three sides and quite a fertile valley around. The city is surrounded by a wall and has the same small crooked streets that typify this land.

We hunted up a man who had lived in Lincoln, Ill. (an acquaintance of Cousin George's), who is now residing in comfort on American money made in the candy store business. He took us into a very nice garden behind the house—which, like most others, had a very plain exterior, and all the living rooms above the first floor. His family were at the seashore, so he could only give us some fine wine in the arbor, which Cousin George enjoyed, but rather bothered my head. He is a large fine looking fellow and very hospitable.

### COUPLE SELECTED NEW M. E. PASTORS

ALL READY FOR THE WEDDING AT THE STREET FAIR.

### REV. MILLER TO TIE KNOT

Will Get a Big Lot of Presents to Begin Housekeeping With—Everything Ready for the Big Show.

The street fair is not very far off, and the various committees are very busy this week getting all arrangements in shape for the event. The street fair will open on Monday, but no program will be given, as this will be preparation day, so that all of the concessions, exhibits and shows will be ready to start on Tuesday.

The public wedding committee, composed of Ralph Marcell, Harry H. Lyle and Jesse Paulette, have selected the couple that will be married in public on Thursday during the fair week. They received four applications. The arrangements for this affair are not yet completed, but the wedding will probably take place in the court yard at 2:30 o'clock in the afternoon of this day. It will be performed by Rev. C. J. Miller, pastor of the Christian church of this city. The names of the couple to be married will not be made public until the ceremony is performed. The couple will receive \$300 worth of presents from the merchants of Maryville.

The streets in the business section will be strung with electric lights and streamers. The colors for the fair this year will be purple and orange, and Mayor Arthur S. Robey went to St. Joseph Tuesday to order the street decorations. The Electric Light company is putting up their wires and will install the lights the last of the week.

A party composed of M. A. Turner, Albert Kuchs, Glenn Goff, Lawrence Schumacher and Bruce Montgomery went to Clarinda Tuesday to attend the fair and see about contracting for a few shows that will be there.

### STRANGE DISEASE

THAT IS KILLING HUNDREDS OF HORSES IN KANSAS.

### MAY BE IN THIS COUNTY

Two Horses Have Died and Several Have Been Sick in This County During the Past Week.

So far there has been only two deaths of horses in this vicinity, according to Deputy State Veterinarian G. H. Leach of this city. Another horse belonging to Johnson West, north of Pickering, died today, according to Dr. Leach, who attended the horse this morning but could do nothing for him. Other horses that have had the disease are the horses belonging to A. R. Robinson and Sam McClurg of near Maryville, a horse belonging to William Friend of near Hopkins, and also a case of the disease at Hopkins. The two horses that have died were those of H. Murray and D. F. Shupe, which died on Sunday.

What the disease is that is killing so many horses and animals in Kansas is not definitely known, but it is thought that the same disease that is affecting them is in Nodaway county. The following were the instructions issued to farmers in Kansas affected by the horse epidemic:

"Take all horses and mules off pasture until freezing weather.  
"Feed animals on green corn fodder, cane or kaffir, bran, oil meal, or, in fact, any food that has a laxative action.  
"Do not feed hay cut from low or overflowed land, or land receiving drainage from pastures.

"See that horses have a pure, wholesome water supply, free from surface drainage and that they are excluded from all still stagnant or surface water.  
"Empty, clean and thoroughly disinfect all water troughs and tanks by scrubbing out with a solution of four ounces of carbolic acid to a gallon of water.

"Many sections are visited with unscrupulous persons who are proclaiming they can prevent and cure this disease. Beware of them. Do not permit them to do anything. Pay them no money. The governor has given instructions to prosecute all such vendors. All persons acting as graduate veterinarians can easily identify themselves."

The disease in Nodaway county don't seem to be bad, as the only cases are those that are now treated by Dr. Leach. Other sections of the county report that no horses have died there.

### Cases Filed in Court.

Are you ready for the big street fair?

Republicans in some sections are passing resolutions calling for the resignation of Judge Norton, who has accepted the Bull Moose nomination for governor. They say he owes it to the party that elected him to give up his office now that he has forsaken the party.

The trusts can be depended on to help the trust candidates for president. The people should remember that it takes money to run the people's campaign and that it takes 10,000 one-dollar contributions to equal one \$10,000 trust contribution.

All those who were benefitted when President Taft vetoed the bill to reduce the price of sugar two cents a pound or the bill to reduce the cost of clothing will want Taft re-elected. Now will all the people who were not benefitted by his veto of those Democratic bills give their aid to the Democratic candidate? If so Woodrow Wilson's election will be nearly unanimous.

While a new state chairman will be most satisfactory to the rank and file of the Missouri Democracy, Joe Shannon is entitled to great credit for raising a considerable campaign fund during vacation and thus making the work of his successor much easier. Ordinarily the first work in hand is to raise funds to begin with, but this time the work of organization, education and fund raising can go along together. Governor Dockery, one of the best and most useful Democrats in Missouri, is also entitled to much praise for the valuable assistance he rendered in this work.

## IOWA MINERS IN RACE RIOT

Seven Men Wounded, Constable Will Probably Die.

### NEGROES DISPLACED BY WHITES

Trouble Started Over Poker Game—Many Guns and Razors Taken From Combatants—Officers Now in Control.

Scandia, Ia., Sept. 10.—Four men were shot and two others badly stabbed in a clash between white and negro miners here.

A negro constable, who attempted to quiet the disturbance, probably was fatally shot. William and Joseph Heathcote, white, and William Davidson, negro, said to be leaders of the outbreak, have been arrested.

The race war first made its appearance six weeks ago, when a number of negro miners were discharged and white men engaged to do their work.

The battle between the negroes and whites resulted from a poker game over which there was much feeling, according to officers.

### White Leaders Bad Citizens.

The Heathcote brothers, leaders of the white forces, are charged with having fired most of the shots, many of which buried themselves in four negroes and probably fatally injured Constable H. Lee. The other negroes may recover.

Many white miners were disarmed during the night. The razor was the weapon used by the negroes.

Following the battle, the Heathcotes, who are considered dangerous characters, went to their home, and James fell unconscious from loss of blood.

A report reached them that officers were coming from Perry, Ia., and the two older brothers, armed with rifles, formed a guard about the house and declared they would kill anyone who attempted to arrest them. They held out until late in the day, and then surrendered to Sheriff George Ross.

The authorities now have the situation well in hand and no further disturbances are expected. Many more arrests are to be made, according to officials.

### WON TROPHY WITHOUT CONTEST

Americans Refuse to Compete When French Aviator Made 105½ Miles an Hour.

Chicago, Sept. 10.—Jules Vedrines, premier French aviator, flying a monoplane, was the first aviator to complete his flight against time in the Gordon Bennett competition here.

Vedrines took the air at 9:28 and finished the 124.8 miles of the race slightly more than an hour later. His average speed was 105½ miles an hour.

The competition was a 12½ from the American standpoint. It was admitted that the Yankees, with their slower, heavier machines, did not have a chance against the French racer.

"What's the use of flying?" asked the Americans in the Gordon Bennett race. "Vedrines' time is unbeatable by any machine here."

It is admitted France has won the trophy for the first time, on Vedrines' showing of 105½ miles an hour.

### The Biggest Corn Crop.

Washington, Sept. 10.—This year's corn crop in the United States is the biggest on record, according to the report of the agricultural department, just issued. It makes the crop condition 82.1, with an indicated yield of 2,995,000,000 bushels, 454,000,000 bushels more than in 1911 and 68,000,000 bushels more than the largest preceding crop, that of 1904.

Mrs. A. M. Redce went to Pickering Tuesday for a visit with friends.

## MAINE GOES BACK TO REPUBLICANS

W. T. Haines Elected Governor by Small Plurality.

### PROGRESSIVES HAD NO TICKET

Joined Hands With G. O. P. to Beat Democrats—Consented to Postpone Split Till State Election Was Over.

Portland, Me., Sept. 10.—Maine turned back to the Republican party in the state election.

William T. Haines of Waterville was elected governor over Gov. Frederick W. Plaisted, his Democratic opponent, who sought a second term, while the Republicans gained one of the two congressional districts lost to the Democrats two years ago.

Returns for governor from 550 out of 634 election districts gave Haines (R.) 66,121, Plaisted (D.) 62,127.

The corresponding vote in 1910 was: Bernald (R.) 60,556, Plaisted (D.) 67,501. These returns show a Republican gain of 9 per cent and a Democratic loss of 8 per cent.

If the same percentage is maintained throughout the state Haines' election is indicated by about 3,000 plurality.

The new legislature is expected to have a small Republican majority.

### Fight Was Close.

The struggle between the Democrats and Republicans in Maine for control of the executive and legislative departments of the state government, the four congressional districts and county offices was one of the closest in many years.

The Democrats went into the state struggle this fall on the defensive, having won control of the state government in the election of 1910. They based their campaign almost wholly on national issues, although defending their course in the state administration. The Republicans used state issues entirely as the weapons of attacks and refused to be drawn into any discussion of national affairs. The progressive element of the Republican party was in full control of party machinery, but with the approval of Col. Roosevelt a split was postponed until after the struggle.

### Fight for T. R. Now.

Many of the leading state speakers in the campaign which has just ended announced that they would take the stump immediately for Col. Roosevelt for president.

The Republican organization was able to bring out a greater vote for Haines in the contest than was given for Fernald, the party candidate who was defeated two years ago, while the Democratic vote for Plaisted showed a falling off from that of 1910.

### SHOT FOUR MEXICAN OFFICERS

Antonio Serne and Three Lieutenants Planned to Betray and Loot Capital.

The City of Mexico, Sept. 10.—Antonio Serne and three of his lieutenants who aided him in forming a plan to open the capital to the Zapatistas on the night of September 1, were shot here by a squad of soldiers.

Serne, who had given himself the title of general, conceived the plot and since the arrest of himself and a score of his followers in the suburb of the city a few days ago, they have confessed that they expected to engage in a season of loot on the national holiday next Sunday.

### Dentists Meet in Washington.

Washington, Sept. 10.—Over 4,000 delegates to the National Dental association were present when that body convened its sixteenth annual meeting in the auditorium of the New Willard hotel here today. Cuno H. Randolph delivered the address of welcome, which met with response from Dr. Frank O. Hatrick of Ottawa, Kan. The feature of the opening session was the address of Dr. Newell S. Jenkins, an American dentist from Dresden, Germany, who described many interesting features of the profession as practiced abroad. Opponents of the present form of organization busied themselves during the earlier hours of the meeting by scattering propaganda advising reorganization. They claim such a move would mean the elimination of inefficient dentists.

### Knox Arrives at Tokio.

Tokio, Sept. 10.—The American secretary of state, Philander C. Knox, the first special envoy to the funeral of the late Emperor Mutsuhito, to reach Japan has arrived at Tokio. Mr. Knox was accompanied by Mrs. Knox and a suite, including Ransford Miller, chief of the Far Eastern division of the state department. The American party was given a cordial reception.

### Hanford Decree Reversed.

Washington, Sept. 10.—The acting attorney general, Mr. Harr, instructed the United States attorney at Seattle to agree to a reversal by the circuit court of appeals of ex-Judge Hanford's decision, canceling the citizenship of Leonard Olsson, a Socialist. Hanford's action resulted in impeachment proceedings against the judge and his resignation.

## NINE AMENDMENTS PROPOSED

### MISSOURI CONSTITUTION MAY HAVE MANY CHANGES.

Voters in November Will Have Opportunity to Approve or Reject These Propositions.

Jefferson City, Sept. 10.—Nine proposed amendments to the constitution will be submitted to the voters of Missouri at the November election. Five of these were submitted by the last legislature and four under initiative and referendum petitions.

The amendments are as follows:

Reducing the minimum age at which children can enter the public schools from 6 to 5 years.

Authorizing St. Louis county to impose a special tax of five cents on the \$100 assessed valuation for constructing sewers and water systems.

Authorizing cities of the third and fourth classes to vote 40 cents on the \$100 assessed valuation for public buildings.

Changing the naturalization law so as to require aliens to take out their full naturalization papers before exercising the right of franchise. They can now vote after having filed their declarations to become citizens, or first papers, as generally referred to by this class of citizens.

Requiring a registration of voters in St. Louis county.

The following four propositions will be submitted under the initiative and referendum and will follow the other amendments on the ballot as here indicated:

Providing for an abolition of taxes upon personal property, other than that owned by public service corporations. This is what is known as the single tax amendment.

Abolishing the state board of equalization and providing for the appointment by the governor of a tax commission, to be composed of three persons. This amendment is a companion piece to the single tax proposition.

Authorizing the opening of the ballot boxes when it is in evidence that crimes against the election law have been committed, and which could only be established after an examination of the contents of the boxes. This is by far the longest of all the amendments. It was prepared at the instance of the Women's Christian Temperance union.

Providing for a mill tax for support of the state university, the state normals and the public schools, the tax to be divided equally.

It will be observed that educational measures constitute the head and tail of the proposed changes in the constitution.

## BOWELS BAD, LIVER TORPID? CASCARETS

If Constipated, Bilious, Headachy, Stomach Sour, Get a 10-Cent Box of Cascarets—Take One Tonight.

You men and women who can't get feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, grassy, disordered stomach, or have backache and feel worn out. Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets work while you sleep; cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out the system all the constipated waste matter and poison in the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regulated and head clear for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken.
